August committee meeting

Welcome Back ICL

Thursday, September 16 12h30

Our traditional Welcome Back gathering, after the summer break, will be held in Lausanne at the Brasserie Montbenon, formerly known as the Casino. The building was recently modernized with great care and respect for the art deco style of the place

So at 12:30, you are invited to have a welcome drink outside in the garden, fair weather permitting. Lunch will be served at 13:00 inside the brasserie where we will have one or two tables just for ourselves. The restaurant limits groups to 22 so we must apply a first-come-first served rule.

The **menu** is 38 francs, not including beverages. There is an entrée of mesclun salad, a good choice of meat, fish or vegetarian followed by a choice of three desserts. You decide on the day your choice for the main dish and the dessert. We hope to post the menu on our site but can't guarantee it, see note below.

We recommend you keep track of your beverages as the waiter will come around at the end of the lunch.

Turbo-hydroelectric Powerplant - Clean Electricity

Wednesday, October 20 afternoon

We will visit a most unknown place situated just opposite to the well-known Château de Chillon.

It is an underground powerplant that produces electricity from water stored 900 m higher up at Lac de Hongrin. One of the halls is bigger than the Cathedral of Lausanne. But this is not all ... on this visit you will have a chance to discover more of this unusual place. After the visit we will have time to stop for coffee or tea.

Date : Wednesday, October 20 afternoon

Cost : Visit is free

NOTE:

Our website www.icl-club.ch is actually undergoing administrative changes. For this reason, it is possible that up-dating will be delayed. Check from time to time. If it can't wait to know the menu, you may contact Alicia.
